## Why companies partner with Hiring Hub's Portal

“ Hiring Hub offers a fantastic solution for us, helping us onboard niche recruitment agencies really quickly for specialist roles, and work with those recruitment agencies compliantly.

“ It's important to us that we champion diversity. To do that, we must be able to monitor diversity data through our hiring funnel to uncover any bias, identify suppliers that consider diversity when shortlisting candidates, and measure progress so we can share this journey transparently across our organisation.
